November 17, 2014

Dear Chief Executive Officer:

Consistent with prior years, NOLHGA is providing the enclosed data regarding insolvency costs to assist members of the insurance industry in establishing accruals for their respective share of these costs. Beginning in 2001, insurance companies were required to establish a liability and expense for guaranty association assessments when a loss is probable and can be reasonably estimated. Statement of Statutory Accounting Principle ("SSAP") No. 35R – Revised Guaranty Fund and Other Assessments (finalized March 2000 by the NAIC, revised October 2010) and Statement of Position ("SOP") 97-3 – Accounting by Insurance and Other Enterprises for Guaranty Fund and Certain Other Insurance-Related Assessments (released December 1997 by the AICPA) discuss the particulars for establishing these liabilities.

The enclosed schedules provide estimates of the total costs (including statutory benefits and the expenses incurred to provide them) for specific, multi-state insolvencies in which NOLHGA has been involved. Also included is related assessment information for which NOLHGA is aware (this information reflects assessments called (i.e. billed) less refunded as of December 31, 2013). Please review the comments at the beginning of each section for a clearer understanding of the data and the limitations inherent in these estimates.

The enclosed data is based on estimates from a variety of sources without having been verified to its source. Also, the data generally does not attempt to account for the cost of non-NOLHGA insolvencies (such as where only one or two states are affected). Furthermore, because the data utilizes estimates, it may exclude costs incurred directly by the state guaranty associations, and does not reflect the actual timing or amounts of assessment levies and calls by member state guaranty associations. As such, the contents of this report may not be utilized in protesting actual assessments made by the guaranty associations.

Please forward the enclosed material to the appropriate individual within your company. We hope the enclosed data is useful and informative. If you should have any questions, please contact me at (703) 787 - 4119.

Sincerely,

Paul A. Peterson

Vice President, Accounting and Finance

Overview

General Comments

Please note the following general comments relating to sections within this package.

<u>Overview</u> – lists insolvencies by certain categories and contains summary totals for each category. Generally, these
are multi-state cases in which NOLHGA was involved. Costs may include amounts needed to fund assumption
reinsurance transactions, claims paid directly by guaranty associations, expenses incurred by NOLHGA and guaranty
associations and assets actually received from estates. Note the following general classifications:

• Pre-Liquidation Cases

Companies listed in this category are under some form of oversight (conservation, rehabilitation, etc.) by state insurance departments but have NOT been place into liquidation nor has a final order of liquidation with funding of insolvency been obtained. Costs estimates are based on available information regarding policy liabilities and available estate assets, if any. Companies will need to decide whether or not they wish to establish an accrual for these cases since neither SSAP No. 35R or SOP 97-3 appear to require an accrual until a final order of liquidation is obtained.

Open Insolvencies

The insolvencies listed are those that are still in an "open" status. These cases may be involved in the development of an assumption reinsurance agreement which has closed (or is anticipated to close in the near future); an assumption reinsurance agreement that requires funding to occur in the near future (or funding is anticipated to occur over a number of years beyond the current period) or may have closed blocks of business which will be administered indefinitely by guaranty associations and claims will simply be in a run-off status.

Closed

This category lists those costs associated with assumption reinsurance agreements that have been closed or outstanding claims benefits have essentially been funded by Guaranty Associations. Guaranty associations may still incur costs related to covered obligations.

Estates Closed

This category lists those costs associated with estates that have had court orders issued to close the estate. No further costs or recoveries other than minor amounts are anticipated.

Released from Oversight

This category lists those cases which were under some form of Insurance Department oversight (whether referred to as supervision, conservation, rehabilitation, receivership, etc.) and did not proceed to a liquidation status. The cases are eventually released from Department oversight. Blocks of business are generally disposed of without GA funding. Guaranty association costs should be minimal and are generally limited to expenses involved in monitoring the cases.

• Other Key Points

Provides general comments related to specific insolvencies.

Anticipated Funding Schedule

This section contains Anticipated Funding Schedules for certain insolvencies for which Guaranty Association funding occurs over a period of time extending beyond year-end 2014. Particular attention should be given to these insolvencies since Guaranty Associations may fund their participation in an assumption reinsurance agreement through a variety of methods (such as the use of a promissory note or borrowed funds to accommodate capacity limitations or the economic benefit to member companies), and it is likely that the timing of actual assessments will not coincide with the enclosed schedules. Please note Executive Life Insurance Company is the only insolvency currently included in this schedule.

General Comments (continued)

• Specific Insolvency Costs and Assessment Information

This section lists estimated costs by insolvency. It provides breakdowns by state and account. It also includes assessments called (billed) and refunded as of the immediate past yearend. Assessment information is compiled annually from state guaranty associations. This information is NOT audited or verified by NOLHGA. NOLHGA cannot comment as to the completeness or accuracy of the information shown herein. Inquiries about assessments should be directed to each individual state guaranty association.

In addition, this information

- does not incorporate estimates of possible future recoveries from remaining estate assets or litigation;
- does not attempt to determine when guaranty associations may actually assess costs to member companies and
- does not attempt to determine whether guaranty associations will utilize existing cash on hand to fund specific insolvencies.

• Assessable Premiums 1988 -2013

This section contains the Total Assessable Premiums for the period 1988 through 2013, by state, by account, by year. The data is obtained from the final Assessment Data Surveys filed by member companies. The data may be used to estimate your company's pro-rata share of the estimated costs for all insolvencies. This may be accomplished by calculating your share of the assessable premiums and applying that factor to the estimated insolvency costs.

State Guaranty Association Assessment and Premium Tax Offset Provisions

This report contains general information regarding assessment and premium tax offset provisions by state as of fall 2014.

AMOUNTS IN THE ENCLOSED REPORTS ARE SHOWN IN WHOLE DOLLARS

The data and enclosed funding schedules utilize estimates and may exclude costs incurred directly by the State Guaranty Associations, and actual assessments made by the Guaranty Associations may not coincide with the anticipated funding schedules. They should only be used in estimating your share of the insolvency costs. Since the data has not been audited, it MAY NOT be used in protesting actual assessments made by State Guaranty Associations. As such, neither NOLHGA nor the Guaranty Associations will attempt to reconcile the data presented in the enclosed reports to actual Guaranty Association assessments or explain differences.

KEY POINTS

Key Points to Consider

KEY NOTES ON ALL INSOLVENCIES:

- NOLHGA expenses are incurred as of June 30, 2014. Where known, expenses and claims incurred directly by guaranty associations and recoveries from litigation, estate distributions etc. have been included.
- Neither NOLHGA nor the Guaranty Associations make any representations or warranties as to the accuracy
 of the enclosed data.
- Assessment information is compiled annually from state guaranty associations. This information is NOT
 audited or verified by NOLHGA. NOLHGA cannot comment as to the completeness or accuracy of the
 information shown herein. Any such inquiries should be directed to each individual state guaranty
 association.
- Beginning in 2013, Puerto Rico is no longer a member guaranty association of NOLHGA. Data presented is historical information. Member companies will need to contact the Puerto Rico guaranty association directly for information on any annual or future insolvency cost estimates.

Pre-Liquidation Cases

This section contains estimated costs by case, by state, by line. The cases listed have not yet been placed under on order of liquidation with finding of insolvency. Member companies need to decide if they wish to establish accruals for these cases since the accounting guidelines do not require an accrual be established until a company is placed under an order of liquidation.

American Community Mutual

No data available.

American Network/Penn Treaty

Penn Treaty and ANIC were placed in rehabilitation on January 6, 2009 and remain in rehabilitation. While an order of Liquidation with a finding of insolvency was sought by the rehabilitator as to each company in October of 2009, the Pennsylvania court rejected that request on May 3, 2012. The court's May 3, 2012 order continued the rehabilitation and directed the rehabilitator to develop and file a rehabilitation plan. As a result, we cannot predict or confirm possible guaranty association assessment numbers or their timing.

Penn Treaty and ANIC are affiliated companies that wrote primarily long-term care insurance. Cost estimates of the GA covered obligations of Penn Treaty and ANIC in a post-liquidation scenario are as of December 31, 2013. We note that the estimates are subject to substantial variation as additional information becomes available and are sensitive to changes in assumptions and prevailing interest rates. Please see the attached file labeled "Penn Treaty ANIC Net Liabilities 2013q4 Memorandum" for more details on these estimates. The numbers in the "Penn Treaty/ANIC" file will vary from those within the Costs file because the Costs file will include additional adjustments for guaranty association expenses and obligations.

Monarch Life Insurance Company

Total costs reflect NOLHGA expenses incurred; no current plans for guaranty association participation.

OPEN INSOLVENCIES

This section contains estimated costs by insolvency, by state, by line. The insolvencies listed reflect those cases which are still in an "open" status with no assumption reinsurance agreement being closed and are in a claim run-off mode, or those that an assumption agreement is anticipated to close in the near future or agreements which may require guaranty association funding for a number of years beyond the current period.

Booker T Washington/Universal Life Insurance Companies

Related companies, current costs reflect anticipated claim costs and expenses in runoff.

Executive Life Insurance Company

Reports in previous years presented estimated costs of each guaranty association's liability discounted to September 1993. Beginning with the 1995 report, costs were shown as if Guaranty Associations paid off all obligations by 2014. Under the Enhancement Agreement, Guaranty Associations have the option to make annual installment payments or defease their obligations. Since GA costs grow with interest over time, deferral of Guaranty Association payments through annual installment payments result in higher aggregate (undiscounted) costs than, for example, making a one-time defeasance payment. Obviously, the ultimate aggregate (undiscounted) cost will depend on how each Guaranty Association chooses to fund their obligations.

Consistent with prior years, the current estimate reflects the following assumptions regarding Guaranty Association funding of ELIC obligations:

Guaranty Associations make annual installment payments through 2014.

All guaranty associations other than Puerto Rico have now defeased their obligations under Article 5.1.2 of the Enhancement Agreement. The remaining liability estimate of \$30 million represents the present value of future obligations under Article 22 and 23 of the plan.

Puerto Rico is no longer a member of NOLHGA and we therefore do not track ongoing activity for this association. You must contact the Puerto Rico guaranty association for any annual or ongoing funding information.

Discount rates used were approximately 5.97% for all remaining obligations.

Other comments pertinent to the estimates include:

The estimates are net of approximately \$318 million received between 1995 and 2013 from the ELIC Trusts. Future recoveries, if any, from the Trusts cannot be estimated and therefore are not included in this presentation.

The estimates are exclusive of any possible future indemnity charges. Such charges, if any, cannot be estimated and therefore are not included in this presentation.

The estimates include actual administrative charges from Aurora through 2009 and allocated NOLHGA costs through June 30, 2014. The estimates exclude future Aurora administrative costs and allocated NOLHGA costs.

The estimates include actual and projected costs related to Article 22 and 23 of the Enhancement Agreement. While there are no arrangements currently in place to defease such obligations, the estimates assume that the present value of such costs is paid in 2014. Guaranty associations at this time do NOT have the option of defeasing those obligations and will be required to fund benefits annually similar to past years.

Because of the uncertain nature of the Guaranty Association obligations, the schedule included in the Anticipated Funding Schedule Section for Executive Life MOST LIKELY WILL NOT coincide with actual assessments from the guaranty associations as a result of (a) factors previously mentioned; (b) differences between actual and estimated amounts due as a result of changes in interest rates and other factors; and (c) guaranty associations which may be, or anticipate, experiencing capacity limitations.

Life & Health Insurance Company of America

Total costs reflect expenses incurred by GA's and NOLHGA, estimated reserves for business yet to be sold, assumption costs for minor block of life business sold and claims paid (net of premium collected) on various blocks of business.

Lincoln Memorial and Memorial Service Life Insurance Companies

Companies wrote preneed funeral insurance. Current plan calls for guaranty associations to run-off business. Total costs reflect paid claims, expense, premiums received and a reserve estimate using the 1980 CSO ALB Sex distinct Mortality at 4.0% Valuation ate. See special file for cost range estimates on Lincoln Memorial.

National States Insurance Company

Current estimate reflects claims paid and remaining reserves on LTC block of business. Life block and small non-LTC block sold during later part of 2011 and 2012. LTC business is remaining block that is in run-off.

Universal Health Care Ins. Co. Inc.

Company placed into liquidation in 2013. All business is Medicare Advantage. Currently processing claims incurred prior to the liquidation date. Costs represent paid claims and NOLHGA incurred expenses.

CLOSED INSOLVENCIES

This section lists those costs associated with assumption agreements which have been closed prior to 2014 or all claims have essentially been funded. Since Guaranty Associations may fund their participation in an assumption reinsurance agreement through the use of a note or borrowing the funds, it is possible that actual assessments may not have been levied against member insurance companies. Therefore, the enclosed data is being provided so that you can determine if assessments have been paid or whether an accrual needs to be established.

Andrew Jackson Life Insurance Company

Business sold: Closed 8/27/93, all business transferred.

Benicorp Insurance Company

Most of business transferred pre-liquidation via rewrite program; remaining inforce business cancelled by guaranty associations. Total costs reflect claims funded by guaranty associations through the fall of 2009.

Centennial Life Insurance Company

Placed into liquidation 5/98. Costs include claims paid directly by Guaranty Associations along with related GA and NOLHGA expenses.

Executive Life of New York

The ELNY Receiver filed a Petition for Liquidation with the Receivership Court on September 1, 2011. Letters describing the Restructuring Plan were mailed to payees on December 7, 2011. The Plan was appealed during 2012. In 2013, the liquidation plan was approved and closing occurred during August. Finanl accounting and guaranty association funding occurred during 2014.

Member insurers of The Life Insurance Company Guaranty Corporation of New York should note that they may be subject to an additional assessment of approximately \$50 million in the aggregate in connection with the liquidation of ELNY by The Life Insurance Guaranty Corporation existing under Article 75 of the New York Insurance Law. Assessments by The Life Insurance Guaranty Corporation are not reflected in this report.

Family Guaranty Life Insurance Company

New case in 1999, part of Thunor Trust companies. Costs reflect sale of business via assumption reinsurance and subsequent final accounting during 2001 along with guaranty association expenses incurred directly.

Farmers and Ranchers Life Insurance Company

ALL AMOUNTS IN THE ENCLOSED REPORTS ARE SHOWN IN WHOLE DOLLARS

The data and enclosed funding schedules utilize estimates and may exclude costs incurred directly by the State Guaranty Associations, and actual assessments made by the Guaranty Associations may not coincide with the anticipated funding schedules. They should only be used in estimating your share of the insolvency costs. Since the data has not been audited, it MAY NOT be used in protesting actual assessments made by State Guaranty Associations. As such, neither NOLHGA nor the Guaranty Associations will attempt to reconcile the data presented in the enclosed reports to actual Guaranty Association assessments or explain differences.

ANTICIPATED FUNDING SCHEDULES

Anticipated Funding Schedules

This section contains Anticipated Funding Schedules, by year, for the following insolvencies:

Executive Life Insurance Company

Included for your benefit is a reconciliation between the "Total Anticipated Funding Schedule" and the insolvency costs reflected in the "Overview Open and Closed Insolvency" report.

Actual assessments by Guaranty Associations <u>most likely WILL NOT match</u> the enclosed funding schedules, particularly in states which may be experiencing capacity limitations. Therefore, this data MAY NOT be utilized in protesting actual GA assessments.

Please refer to the applicable section for more detailed comments regarding a specific insolvency contained within this section.

These schedules are provided solely for use by member companies to discount the pro rata share of the insolvency costs at a rate applicable to the member company, if the member company chooses to do so. You may wish to confirm this practice with your auditors or insurance department prior to making your calculations and for any guidance that may be available regarding the applicable discount rates(s).

ASSESSABLE PREMIUM

Assessable Premium 1988 – 2013

This section contains the Total Assessable Premiums for the periods 1988 through 2013 by state, by account, by year. The data is obtained from the final Assessment Data Surveys as filed by member companies. **The premiums for 1988 through 1993 include all changes as a result of the 1988 - 1993 Assessment Data Resurvey.** Results of the resurvey were released to Guaranty Associations and insurance commissioners June 30, 1997.

Guaranty Associations may adjust the Assessment Data Survey premiums for any number of reasons (i.e. companies file corrected surveys; formula error occurred in the compilation of the data, companies are added/deleted from the premium base, the Guaranty Association uses a premium basis other than the Assessment Data Survey, etc.). Because of these adjustments, the premium basis used in the actual assessments by Guaranty Associations may differ from the enclosed data. Therefore, the enclosed material MAY NOT be utilized in protesting actual Guaranty Association assessments. Neither NOLHGA nor the Guaranty Associations will attempt to "reconcile" the enclosed material to that used in actual assessments. The data is provided to you solely to aid your company in determining its market share and related share of the insolvency costs.

The data may be used to estimate your company's pro-rata share of the estimated costs for all insolvencies. This may be accomplished by calculating your share of the assessable premiums and applying that factor to the estimated insolvency costs. Premium figures for your company will need to be obtained from your records; neither NOLHGA nor the Guaranty Associations will provide company specific premium information. Note: When calculating your pro-rata share of premiums, please remember to use your 88-93 resurvey premiums as opposed to those originally filed.

Following are some, but not all, methods that may be considered in calculating your company's pro-rata share. <u>NOTE</u> these are not meant to be definitive accounting guidelines in determining guaranty assessment accruals, but are only offered as food for thought.

- Determine Company's premium on a state level, by account basis and divide by state, by account totals indicated in enclosed material. Apply this factor to the enclosed cost data on a by state, by account basis. This method most likely is the most accurate in determining a company's pro rata share of the costs, however, it may also be the most complex to establish.
- Determine Company's premium on a state level basis and divide by state totals indicated in enclosed material. Apply
 this factor to the enclosed cost data on a by state basis. This method generally ignores the type of market a company
 writes in. Somewhat less complicated than above approach, probably is not much of an extra effort to go one step
 further and determine by account share.
- Determine Company's premium on a countrywide, by account basis and divide by countrywide, by account totals indicated in enclosed material. Apply this factor to the enclosed cost data on a countrywide, by account basis. Most likely the least accurate method, however, probably the easiest to administer.

In addition, the following points should also be taken into consideration when developing your cost estimates:

- Develop premium basis under above methods based on particular state provisions (i.e. 3 year average prior to year of insolvency, 1 year prior to year of assessment, etc.). A summary of state provisions is provided, however you are cautioned that this information HAS NOT been verified with the guaranty associations.
- Apply ratios developed above to assessment information provided to estimate amounts that may have been
 previously paid. Alternatively, companies should gather past paid assessment information from their own payment
 records as this would provide the most accurate payment information.
- Incorporate applicable premium tax offset provisions into above methods, subject to recoverability testing. Be sure to reflect tax recoveries as an asset as opposed to netting them against the accrual estimate if required.

Neither NOLHGA nor the Guaranty Associations make any representations or warranties as to the accuracy of the enclosed data.

ALL AMOUNTS IN THE ENCLOSED REPORTS ARE SHOWN IN WHOLE DOLLARS

The data and enclosed funding schedules utilize estimates and may exclude costs incurred directly by the State Guaranty Associations, and actual assessments made by the Guaranty Associations may not coincide with the anticipated funding schedules. They should only be used in estimating your share of the insolvency costs. Since the data has not been audited, it MAY NOT be used in protesting actual assessments made by State Guaranty Associations. As such, neither NOLHGA nor the Guaranty Associations will attempt to reconcile the data presented in the enclosed reports to actual Guaranty Association assessments or explain differences.

Account Structure, Assessment and Premium Tax Offset Provisions

The enclosed material was obtained through a cursory review of available information to NOLHGA and is as of fall 2014. You should check each applicable state insurance statute prior to using the enclosed.

Assessment basis and capacity rates may affect the accuracy of accruals a company establishes for Guaranty Association costs. The enclosed information is provided to aid your company in establishing the most accurate accrual possible, however it should be verified with individual state statutes should you choose to do so.

Tax offsets may be considered when establishing your accruals for Guaranty Association assessments, where allowed. However, recoverability tests should be conducted to ensure that such an offset is reasonable. Such offsets may need to be reflected as an asset as opposed to netting against the liability; be sure to review the provisions of SSAP No. 35R and SOP 97-3 for proper treatment.

Tax Offsets

[current as of January 01, 2014]

Alabama

§27-44-13(a). Yes. Up to 20% of assessment amount may be offset for 5 years after payment. Covers all assessments but administrative expenses.

Alaska

No provision.

Arizona

§20-692. Yes. Beginning in 1995 (see statute for pre-1995 guidance), member insurers may offset 20% of the assessment for the year of assessment, and 20% of the assessment per year for the succeeding four years. The total amount of the offset may not exceed 100% of the assessment.

Arkansas

§23-96-115(j)(1)(A). Yes. Up to 20% of assessment amount may be offset for 5 years after payment; covers all assessments but administrative expenses.

California

§1067.08(i)(1). Yes. No tax offset provided by law; however, a health insurance assessment recoupment is permitted by way of policyholder surcharge. Member insurers are required to recoup over a reasonable length of time a sum reasonably calculated to recoup the assessments with respect to the health insurance account paid by the member insurer under this article by way of a surcharge on premiums charged for health insurance policies. Amounts recouped shall not be considered premiums for any other purpose, including the computation of gross premium tax or agent's commission.

Colorado

§10-20-113. Yes. 100% of Class B assessment amount made on life and annuity accounts may be offset for 5 years following payment at the rate of 20% per year. The total amount of all offsets for all member insurers can not exceed \$4 million per year. Offsets will be prorated if the total amount of offset would exceed \$4 million in any year. Carry forward of offset is permitted when cap is exceeded. Member insurers writing health insurance can recoup assessments costs by way of a surcharge on premiums.
